

1 Table of Contents

1. Introduction	1-1
2. Grapevine Development and Basic Physiology	2-1
The Goals of Viticulture	2-1
Basic Physiology	2-1
Vine Development	2-2
Effects of Vine Injury	2-4
3. Vineyard Establishment	3-1
3.1. Site Selection	3-1
Climate	3-1
Minimum Site Requirements for the Planting of <i>Vitis vinifera</i>	3-1
Solar Radiation	3-1
Growing Degree Days	3-2
Precipitation	3-2
Slope	3-2
Elevation	3-3
Wind	3-3
Water	3-3
3.2. Soils	3-6
Soil Survey	3-6
Soil Amendments	3-6
Land Preparation	3-6
Pre Plant Cover Crop	3-7
Nitrogen Contribution of Cover Crop	3-7
Site Development	3-7
Row Direction	3-8
Vine Spacing	3-8
3.3. Planting Grapevines	3-9
3.4. Variety and Rootstock Selection	3-10
Grape Variety Descriptions	3-11
Rootstock Description	3-18
Rootstock Characteristic	3-19
Importing Grapevines	3-21
3.5. Trellis Systems	3-22
Trellis Design	3-22
Training Systems	3-22
Vertical Shoot Positioned System	3-23
Scott Henry System	3-24
Horizontally Divided Canopy System	3-25
Geneva Double Curtain	3-25
Wide T Trellis System	3-26
Posts and Wire	3-26
Anchor Systems	3-26
4. Vineyard Maintenance	4-1

Table of Contents

4.1. Maintaining Young Vines	4-1
Vine Rejuvenation	4-1
4.2. Canopy Management for Pacific Northwest Vineyards	4-2
Definitions of Canopy Management	4-2
Goals of Canopy Management	4-4
Light and Temperature Effects of Canopy Manipulations	4-4
Canopy Assessment Methods	4-6
Techniques for Canopy Manipulations	4-6
Methods to Improve Fruit Exposure	4-10
The Ideal Canopy	4-11
Concluding Remarks.....	4-11
References and Useful Literature.....	4-12
Pruning.....	4-13
▪ Cane Pruning.....	4-13
▪ Spur Pruning	4-13
4.3. Nutrition	4-14
Soil Management	4-14
Erosion Control.....	4-16
Organic Matter	4-17
Non-Nutritional Causes of Low Vine Vigour.....	4-18
Fertilizers and Mineral Elements	4-19
Plant Nutrients	4-19
Nitrogen.....	4-20
Calculation of Fertilizer Rate for Ground Applied Fertilizers.....	4-21
Phosphorous and Potassium	4-22
Magnesium	4-22
Boron.....	4-22
Calcium.....	4-23
Zinc	4-24
Iron.....	4-24
Manganese	4-25
Copper.....	4-25
Sulphur	4-25
Soil Reaction an Influence of pH Availability of Nutrients	4-25
Lime Applications to the Soil	4-25
Soil Acidification.....	4-26
Fertigation.....	4-27
Petiole and Soil Analysis	4-29
Variety Vigour	4-29
Soil Analysis	4-29

Table of Contents

Soil Testing Philosophies	4-30
Soil Sampling Methods for Vineyards	4-30
Avoid Contamination of Sample	4-30
Compatibility Chart.....	4-31
4.4. Irrigation	4-32
Water Management Principles and Practices for Vineyards	4-32
Irrigation Systems	4-32
Seasonal Water Requirements – Phenology and Climatic Conditions	4-34
Soil Type and Plant-available Moisture	4-34
Irrigation During Vineyard Establishments.....	4-35
Irrigation Scheduling Methods	4-35
Deficit Irrigation Methods.....	4-37
Water Management for Table Grapes.....	4-38
Irrigation Equipment	4-39
4.5. Vineyard Floor Management	4-41
Types of Floor Management Systems	4-41
Benefits of Utilizing Cover Crops in Vineyards.....	4-41
Potential Problems	4-42
Using Floor Management Wisely	4-42
Cover Crop Choices and Their Management.....	4-43
Cover Crop Selection.....	4-43
Concluding Remarks.....	4-46
References and Useful Resources.....	4-47
Seed Sources	4-48
4.6. Frost Protection.....	4-49
Considerations for Protecting Grapevines from Low Temperature Injury...	4-49
Introduction	4-49
General Cold Temperature Protection Strategies.....	4-51
Passive Frost Protection Strategies.....	4-52
Active Frost Protection Strategies	4-57
Conclusions.....	4-63
Literature Cited.....	4-66
4.7. Crop Estimation.....	4-68
Overview.....	4-68
Determining the Number of Vines per Acre and per Block.....	4-68
Determining the Number of Bunches per Vine.....	4-69
Predicting Harvest Bunch Weights	4-69
Historic Bunch Weights.....	4-69

Table of Contents

Lag Phase Weights and Factors	4-70
Berry Number Averages	4-71
5. Crop Protection.....	5-1
5.1. Integrated pest Management	5-1
Pest Prevention	5-1
Identification of Damage, Pests and Natural Enemies	5-2
Monitoring.....	5-2
Control Decisions.....	5-2
IPM Control Methods.....	5-3
IPM Record Keeping and Evaluation	5-3
5.2. Grape Diseases	5-4
Disease Diagnosis	5-4
Grape Powdery Mildew	5-4
Fungicide Notes	5-8
Botrytis Bunch Rot of Grape	5-10
Grape Sour Rot.....	5-12
Crown Gall of Grape.....	5-13
Grape Virus Diseases.....	5-14
Major Grape Virus Diseases	5-16
Grapevine Fanleaf Virus	5-16
Grapevine Leafroll-Associated Virus.....	5-16
Arabis Mosaic Virus	5-17
Rupestris Stem Pitting Virus	5-17
Grapevine Phytoplasma Diseases.....	5-18
Grape Root Rot and Decline.....	5-20
Esca/Young Vine Decline	5-20
Botryosphaeria Canker	5-22
Black Foot Disease.....	5-23
Grape Nematode Problems	5-23
Nematode Species	5-24
Other Grape Diseases	5-26
5.3. Insect and Mite Pests of Grapes	5-27
Integrated Pest Management	5-27
Cultural and Physical Controls	5-28
Major Pests of Grapes	5-29
▪ Leafhoppers.....	5-30
▪ Climbing Cutworms.....	5-33
▪ Grape Phylloxera.....	5-34
▪ Wasps.....	5-36

Table of Contents

▪ Spotted Wing Drosophila.....	5-37
▪ Minor or Secondary Pests.....	5-39
▪ Thrips.....	5-39
▪ Spider Mites.....	5-40
▪ Grape Erineum Mite.....	5-42
▪ Grape Leaf Dust Mite.....	5-43
▪ Grape Mealybug.....	5-44
▪ Scale Insects.....	5-45
▪ Snailcase Bagworm.....	5-46
▪ European Earwig.....	5-47
▪ Click Beetle.....	5-48
Miscellaneous Insect Pests.....	5-49
▪ Blackvine Weevil.....	5-49
▪ Wood Boring Beetles.....	5-49
▪ Grasshoppers.....	5-49
▪ Whitefly.....	5-49
▪ Western Grape Rootworm.....	5-49
▪ Cicada.....	5-50
▪ Three-Cornered Alfalfa Treehopper.....	5-50
Additional Information.....	5-50
5.4. Weeds.....	5-51
Non-chemical Weed Control.....	5-51
Chemical Weed Control.....	5-51
Invasive Alien Weeds.....	5-55
5.5. Wildlife Management.....	5-56
Birds.....	5-56
Rodents.....	5-57
Pocket Gophers.....	5-58
Deer.....	5-58
Bears.....	5-59
Snakes.....	5-59
5.6. Urban Issues.....	5-60
Farm Practices Protection (Right to Farm) Act.....	5-60
Noise.....	5-60
Pesticides.....	5-60
6. Organic & Sustainable.....	6-1
6.1. Organic.....	6-1
6.2. Sustainable.....	6-2

Table of Contents

7. Spray Application	7-1
7.1. Pesticides	7-1
Legislation.....	7-1
▪ Canadian Laws.....	7-1
▪ British Columbia Laws	7-2
Toxicity.....	7-2
Pesticide Resistance Management and Chemical Families.....	7-6
Hazard Shapes and Symbols.....	7-8
Poisoning and First Aid	7-9
Protective Clothing and Equipment.....	7-10
Personal and Environmental Safety Guidelines.....	7-11
▪ Buying Pesticides.....	7-11
▪ Transporting Pesticides	7-11
▪ Storing Pesticides/Shelf-life	7-11
▪ Mixing /Loading Pesticides.....	7-12
▪ Applying Pesticides.....	7-12
▪ After Applying Pesticides.....	7-12
▪ Disposal of Unwanted Pesticides.....	7-13
▪ Disposal Containers	7-13
▪ Re-Entry Intervals (REI)	7-13
▪ Grazing Restrictions.....	7-14
▪ Harvesting Pesticides	7-14
Special Environmental Precautions	7-14
Pesticide Application Equipment.....	7-15
Sprayer Calibration.....	7-16
Sprayer Calibration Checklist.....	7-17
Mixing Chemicals	7-18
Maintenance and Operation of Air-Blast Sprayers	7-19
Sprayers Classified According to Volume of Spray Mixture per Acre	7-19
Vineyard Weed Sprayers	7-20
Special Precautions	7-20
Sample Spray Record Form	7-21
8. Harvest and Quality Issues.....	8-1
8.1. Fruit Sampling and Maturity.....	8-1
Grape Sampling.....	8-1
Sample Preparation	8-1
Analysis of Total Solids (sugar) in Grape	8-2
Analysis of Acidity in Grape Must	8-2
Analysis of pH in Grape Must	8-3

Table of Contents

Analysis of Fermentable Nitrogen in Grape Must.....	8-3
Grape Seeds	8-4
Grape Colour.....	8-4
Aroma/Flavour and Phenolic Compounds.....	8-4
Botrytis Bunch Rot or Sour Rot	8-5
Ideal Noble Rot Characteristics	8-5
Ideal Sour, Grey or Vulgar Rot Characteristics	8-5
Other Visual Observations on Fruit Condition.....	8-6
Weather	8-7
Historical Index of Ripeness.....	8-7
Sampling Abnormalities	8-7
Grape Harvest Trivia	8-7
8.2. Harvesting Techniques	8-10
Grape Scheduling.....	8-10
8.3. Food Safety.....	8-11
Introduction	8-11
What is a Food Safety Risk.....	8-11
Ways that Fresh Product May Acquire Food Borne Illness	8-11
Good Agricultural Practices Reduce Food Safety Risk.....	8-12
9. Farm Regulations, Guidelines, and Government Programs.....	9-1
9.1. Health and Safety in Vineyards	9-1
New and Younger Workers	9-2
Musculo-Skeletal or Soft Tissue Injuries.....	9-3
Hazardous Materials.....	9-3
Equipment.....	9-3
Contact FARSHA for Assistance.....	9-4
9.2. Agricultural Employers Guide to BC Employment Standards Act	9-4
9.3. Farm Practices Protection Act.....	9-4
9.4. Environmental Farm Plan Program.....	9-5
10. Useful Publications and Websites.....	10-1
